

COMMENT ON SCOPE OF ENVIRONMENTAL IMPACT ASSESSMENT

Here's a form to guide you in making your Comment for the record. You can hand it in today or you can send it later to the Dept. of Commerce that's preparing the Environmental Impact Statement. Comments must be received by March 13, 2007. Comments may be sent by email to sharon.ferguson@state.mn.us or by mail:

Sharon Ferguson
Department of Commerce
85 - 7th Place E., Suite 500
St. Paul, MN 55101-2198

If questions: David Birkholz, Dept. of Commerce
(651) 297-2375 david.birkholz@state.mn.us

FOR COMMENTS TO COUNT, THEY MUST BE ABOUT THE SCOPE OF THE ENVIRONMENTAL ASSESSMENT, WHAT THE EA MUST ADDRESS.

MY COMMENT REGARDING SCOPE OF CHISAGO EA:

Generally, the EA should consider:

The EA must address the visual impacts of line in these open/protected spaces: N. Lindstrom Lake, N. Center Lake, S. Center Lake

The EA must address the visual impact of line through these cities at these locations: Downtown Lindstrom and Center City. Tourism (fishing) on local lakes.

The EA must address the socioeconomic impact of transmission through these downtown business districts:

Lindstrom, Mn., Center City Mn. (Economic impact of locally funded undergrounding would also be devastating)

The EA must address the comparative impact and costs of overhead and underground transmission line in the following locations: Through Lindstrom + Center City (from Lindstrom substation to east limits of Center City)

ALTERNATE ROUTES

The Dept. of Commerce should consider the following alternate routes (provide as detailed description as possible of route and why that route should be considered – attach a map if possible):

Following the natural gas pipeline corridor from the North Branch area to Shafer area as was originally proposed some years ago. Population density is vastly lower than along the proposed/current route.

Prepared and provided by the City of Lindstrom

For more project info, go to www.puc.state.mn.us and search eDockets for 04-1176 and 06-1677

The EA must address the following socioeconomic impacts of transmission line on tourism:

The EA must address the following socioeconomic impact of transmission line on agriculture:

The EA must address socioeconomic issues related to eminent domain and easements for this transmission, i.e., conditions, whether upgrades are allowed, stream of payment:

The EA must address the following cultural impacts of the transmission line:

The EA must address the following construction impacts, and impacts of maintenance and operation:

The EA must address the following transmission and substation noise issues:

The EA must address the following safety issues:

The EA must address traffic routing and impact issues:

The EA must address the following wetland impact issues in the following areas:

The EA must address the following wildlife impact issues in the following areas:

The EA must address land use appropriateness and impact issues, particularly in these areas:

The EA must address the following health impacts of the transmission line: *Alleged hazards of EMF*

The EA must address the following electromagnetic field impacts of the transmission line:

Chisago Lakes Middle School,
